READING CAB ROSTER

Class	Type	Numbers
FT	DF-1	250AB-259AB
F3	DF-2	260AB-265AB
F7	DF-4	266AB-283AB
FP-7	DP-1	900A -907A
FA-1	DF-3	300AB-305AB

This roster is presented to provide the modeler with correct numbering and class markings and does not reflect all cab units owned by the READING. For an informative look at the reading with a complete roster see EXTRA 2200 SOUTH, August/September 1970 issue. Back issues may be ordered from Extra 2200 South, Circulation Dept, PO Box 41417, Cincinnati, Ohio 45241.

B units painted identically with "A" units except striping is carried through the length of the carbody.

Carbody, Trucks
and Underframe
Black.

Some EMD units carried reflectorized numbers on the front of the loco above the striping. Extra gothic style numbers are provided for application on the nose of the Alco FA type units.

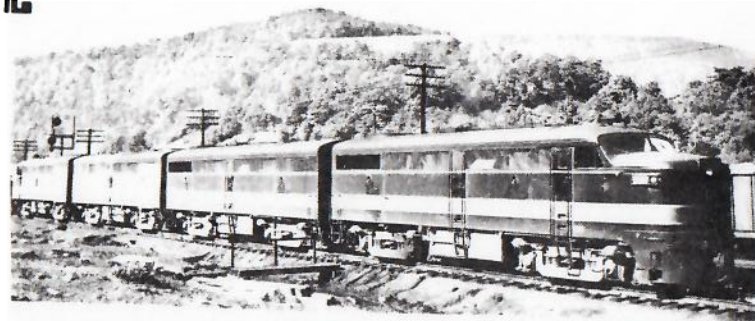

Sufficient decal material is provided to model three cab units. Both Alco and EMD nose striping with Green filler is provided.

Location of class and small road number at rear of F units. FP-7A units carried 5" numbers and road class on the rear of the unit as shown

5" road number and class data on rear of "B" unit.

"B" units carried small road number and class data at one end of unit with 3" F at other end.

Road Name, Numbers and Striping and Class Data are Imitation Gold.
