

## Chessie System Boxcars 40' and 50'

This set will cover most 50' variations. There are 2 types of split "Chessie System" heralds for ribbed type cars.

By the time Chessie started repainting boxcars, the railroad was standardizing on 50' cars. Very few 40' cars were repainted but they were out there. Some ended up in MOW service. It is best to check against photos for comparison and data location.

For additional data in yellow use 87-460 and 87-1123 to cover any variations.
