

## BNSF 2006 White Logos

Also known corporately within BNSF as the "Power Bar". Many railfans have dubbed the latest BNSF logo as the "Wedge" and the "Swoosh"

This set is to be used with other data sets to completely letter the car to a prototype. To date, most of the new wedge logos have been applied to Trinity hopper cars. Several sizes are provided with the largest sized matched to the model Trinity hopper. Use with set 87-1037 to complete the lettering/data on the freight car.

MICROSCALE Decal  
HO Scale 87-1288  
N Scale 60-1288

### Paint Info.

Floquil - Tuscan B-110025
