

This decal set covers the different builds of Railbox boxcars from 1975-1984.

Refer to photographs for each builder's flair on the Railbox paint scheme. The FMC car depicted on top is the typical placement of logos and data. The exception with this diagram is the ABOX class with the extra door.

Pullman Standard Cars used an off font that is included in this set. The Pullman Standard car is depicted on the bottom.

Data and builder plates are provided for several different freight car builders. The corresponding data is horizontally in line with the builder plate on the decal sheet.

MICROSCALE Decal
HO Scale 87-1291
N Scale 60-1291

Contributors:

Brian Rutherford
Harry Wong
Chris Butts
