

This decal set covers the different builds of Railbox boxcars from the late 1990's through the new millenium. This includes both the Gunderson and Trenton TBOX and FBOX styles. Refer to photographs for each builder's flair on the Railbox paint scheme. The 1970 era repainted cars depicted demonstrates the typical placement of logos and data. The exception with this diagram is it is the ABOX class with the extra door.
