

CSX for a few years prior to 2011 utilized a modified logo coined "The Boxcar" logo on their intermodal equipment. Later in 2011 an order of ES44AC's arrived sporting "The Boxcar" Logo. A GP38 #4312 also was spotted in late 2011 sporting the new logo. This suggests a larger effort to letter locomotives with the newer logo than just a single locomotive order or series. Some railfans are debating the designation as YN4 or if it's still YN3. This sheet has also been run in a lighter version of yellow depending on modelers preference. That sheet is 87-1362/60-1362
