

This set includes lettering for the Apache Ry, Columbia & Cowlitz, and the Oregon, California & Eastern Ry. Co. These 3 railroads had similar boxcars in design from FMC. Using the Athearn Genesis 60' Gunderson (G4100) one may shorten the freightcar to replicate the following models. Lettering is also included for the PC&F 52' CLC boxcar and the 63' Bulkhead flats for the Apache and Columbia and Cowlitz.
