

As a result of the New York Central Penn Central Merger, the successor Penn Central started rebranding the existing passenger fleet to the new image. Many of these were simple patch jobs. This set also includes striping for the electrified fleet. If you need additional 1" red stripes, use 91115 for HO and 71115 for N. 2" white stripes are available 91111 for HO and 71111 for N.
