

This decal set covers several different Mexican railroads, including the NDEM, FCP, and CEMEX hoppers. The Ferromex, TFM, and ENDX repatches are included. Due to limited space, you will need to use 87-1325 for HO or 60-1325 for N. Be sure to reference photos when lettering your models.

MICROSCALE Decal
HO Scale 87-1384
N Scale 60-1384
