

This set will cover a variety of hood Diesels for the Ferromex Railway. On the Decal Set you will notice 2 sets of Green Arrows for the nose. the smaller size set is for EMD 2nd generation standard cab diesels and the larger version is for the comfort cab generation. When painting the locomotive, it is suggested to paint the cab red first then mask the red arrow as depicted in the diagram below. You can achieve an exact green match with the long hood and decals by trimming off the clear with a sharp hobby knife, then painting the same green as the long hood on to the nose stripe decals. Enamels work best for this trick.

MICROSCALE Decal
HO Scale 87-1391
N Scale 60-1391

USE WITH: MC-5016 (SD70ACe) 87-925 (GE Dash 9-44CW and AC4400 Data) 87-527 (GE and EMD Diesel Data 1989+)
