

The L&N kept it's own identity up til 1971, yet a few later ordered freight cars managed to be delivered as L&N. A few can still be seen today but owned and operated by CSX. Many of the schemes differ from order to order or even car to car! As always, best to reference actual photos for referencing subtle differences among the prototype.

USE WITH: 87-2, MC-4280 (ACI Labels) and MC-5009 (ACF Data), 87-1163 (Additional Black and Yellow Data)
