

This set includes lettering for 40' and 50' Reading Boxcars. There are several variations that can be modeled. Even more can be modeled beyond what is depicted with additional data and other lettering. For the Large billboard READING scheme with the herald spanning the entire car. The modeler might opt to trim off the clear film around each green letter and paint the letter (using an airbrush and enamel paint) to match the body paint color if they don't already match. This method works well if "fading" the base color for weathering and desiring the green letters to match the rest of the body.
