

This set will cover The Later flag SD70ACe and ES44AC (UP calls them C45ACCTE). On the Decal Set you will notice 2 size flags. the smaller size set is for GE 5300 series diesels and the larger version is for the SD70ACe as well as the other GE ES44AC Deliveries. There are 3 size shields small and medium ar for the GE ES44AC; large shield is for the SD70ACe. When painting the locomotive, it is suggested to paint the longhood and cab Yellow using the red "lightning" stripe pattern from the decal sheet as depicted in the diagram below. The frame stripe running along the base of the floorboards and over the anticlimber is a reflective yellow. Always reference prototype photos for accuracy.

MICROSCALE Decal
