

This set will cover a variety of hood Diesels for the Northwestern Pacific Railroad. There is much more that can be done with this sheet than can be depicted. All the lettering is provided to letter NWP 1922 and 2009. BUGX 1322 will need the Santa Fe decal sheet 87-29 to complete the lettering. Eureka Southern, NWP in Black Widow, and the North Coast Railroad will need two of these sheets to complete all the lettering. One may model the NWP maintenance of way equipment handed down to the NWP from the SP. Reporting marks are on this sheet and also complete lettering for the NWP wood cabooses and 40' wood boxcars.

MICROSCALE Decal
 HO Scale 87-1414
