

This set is designed for multiple variations of the Pan Am Railway scheme. For locomotives this sheet will cover both FP7s, variety of GP and SD hood units, ex Canadian comfort cab GP40s, and the reverse leaning Pan Am Railways lettering. For boxcars, be advised each side is lettered with different heralds. The simplified Pan Am scheme is included with condensed Futura reporting marks.

MICROSCALE Decal
HO Scale 87-1415
N Scale 60-1415

USE WITH: 87-527 (GE and EMD Diesel Data 1989+)

Notice the location of the brake wheel. This will determine the side that displays the large PAN AM herald on it.

Consult photos for the simplified scheme.
