

This set will cover a variety of hood Diesels for the Precision National Corporation. This company leased diesel locomotives to various railroads in the late 1970s and early 1980s. Their locomotives could be found all over the Nation. This set will cover both the solid green and yellow and green scheme. There is lettering supplied for the ex Frisco GP9s as well as other patch and restenciled lettering. When modeling these locomotives, especially the patched locomotives, best to consult photographs for lettering variations.

MICROSCALE Decal
HO Scale 87-1420
N Scale 60-1420
