

MICROSCALE Decal
O Scale 48-1462
HO Scale 87-1462
N Scale 60-1462

As conventional railroad trailers were sold, repurposed, and leased, many experienced an interesting effect as the vinyl decals were removed or existing lettering repainted over. A "ghost" image appeared on to the trailer side still identifying the former owner. From there many vans received new reporting marks from the new owner. These decals duplicate that weathering effect in scale.
