

MICROSCALE Decal
HO Scale 87-1517
N Scale 60-1517

This set will cover the Canadian National 2015 repainted E9A executive heritage diesels. These locomotives were former IC executive E9A diesels that were rebuilt in the 1990s. Body striping are laid down in multiple parts to ease installation of the nose wings and horizontal black and yellow stripes. The road number is already placed in it's correct location for simplification in decal application. The thin yellow stripes are provided as edging after spraying the roofline black. Please reference photos for masking.
