

This set will cover a variety of Archer Daniels Midland corn syrup, CO2 and UNI-TEMP tank cars built and operated between 1975 to 1986. This set replaces previous mini-cal sets MC-4023, MC-4033, MC-4034, and the bottom half of 87-689. This set is comprised of new research new artwork to better fit the more accurate dimensions of freight cars currently on the market by a variety of manufacturers. There are two distinct sizes of multimark stripes. One set is larger than the other. The large multimark stripes are to be used on cars that are all white, the smaller set is to be used on cars with the underframe painted dark blue. Reference prototype photos to determine which will be used. Paints specified are gloss for better decal adhesion. Finish project with a matte product to seal the decals and provide a realistic appearance.

MICROSCALE Decal
HO Scale 87-1519
N Scale 60-1519
O Scale 48-1519
