

# Microscale Decals F4U Corsair Data Stencils & Instruments

FS 25042 Semi-Gloss Sea Blue, horizontal flying surfaces, ie. wing tops.

FS 35042 Non-Specular Sea Blue, fuselage spine, fuselage down to the wing root, and leading edges of wings.

FS 35164 Intermediate Blue, fuselage sides, vertical fin, rudder and under side of the wings from the wingfold out.

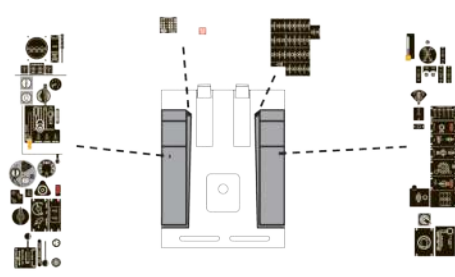

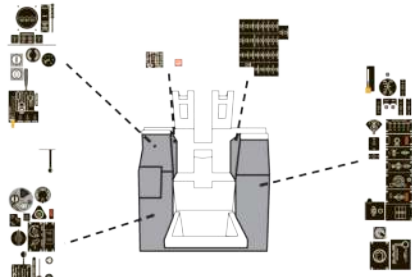

FS 37875 Insignia White, bottom of fuselage, bottom of horizontal stabilizers, countershading under the horiz. stabs., bottom of wings inward from the wingfold joint, landing gear, wheels and inside of the wheel bays and gear doors.

Use Microscale Decal#48-0026. For Stars & Bars

**NOTE:** For best results when using instrument panel decals, first sand surfaces smooth before painting interior color. To allow decals to lay smoothly on surface.
